A career in the beauty industry has many rewards. The potential for financial reward is excellent because this profession is rapidly growing. US Bureau of Labor and Statistics states “Overall employment of barbers, hairstylist, and cosmetologists is projected to grow 19% from 2020 to 2030.” Esthetics and Master Esthetics, “employment for skincare specialists is projected to grow 29%.” “Employment for massage therapists is projected to grow 32%.” All of these occupations are growing “much faster than the average for all occupations.” Trained professionals are in high demand. Once trained and licensed, an individual can fit this career to match his or her own personal needs. Whether he/she chooses to be self-employed

or work for a salon or large company, there are many opportunities to branch out into relevant fields. While Elite Cosmetology, Barber & Spa Academy cannot guarantee employment for graduates; assistance in finding suitable employment is provided by posting area job openings on a career opportunities bulletin board for students to review. Students also receive training in professionalism and job search skills including how to write a resume, complete an employment application and prepare for an effective interview. The curriculum places a great deal of emphasis on how to obtain and retain employment after graduation. Graduates are encouraged to maintain contact with the school and follow-up with the school on current employment or employment needs. In addition, the school maintains a network of relationships with professionals and employers who provide mentoring to students while they are in school. Job referrals are made known to interested graduates as available.

Special Considerations for Graduated/Licensed Operators

Elite Cosmetology, Barber & Spa Academy accepts previous training that aligns with the scope of practice of desired training. Hours in programs regulated by the Department of licensing in the cosmetology field may be transferable to another course in the cosmetology field (i.e., Barber hours may transfer to cosmetology or vice versa). This doesn't include the instructor course as they do not cover the same curriculum.

The hours have to have been completed in Washington State at a licensed school. A transcript of hours or license is required prior to enrollment in the new course. The only exception is Esthetics students wishing to continue on to Master Esthetics will need to have taken, passed and received their Esthetics license to add Master Esthetics to their license.

Students may transfer in from another Massage School as we are a transfer school with Washington State Department of Health. However, programs that are not regulated by the Department of Health (i.e., Esthetics, Barber, Manicuring, Master Esthetics) as prior hours cannot be used toward Massage course hours.

Re-entry Students/Interruptions/ Withdrawals

Students who have been terminated or withdrawn from school may re-enroll (if determined eligible) within 180 days and will not incur additional charges. A meeting with Betty King is required for re-admission. Admissions will be handled on a case-by-case submission. Students will be responsible for payment of any remaining balance from the previous enrollment plus any increase in tuition (if applicable). Students who have been terminated or withdrawn and re-enroll after 180 days will need to pay a \$100.00 enrollment fee and will be charged for contracted hours at the current tuition rate. All re-enrolling students will be charged for any additional kit items as deemed necessary at the time of re-enrollment.

Length of Courses: We have Full and Part-Time Options.

Full time is 30 hours/week; Part time is 20 hours/week. (Full time hour change effective 1/23/2017) Each course/program has been scheduled for completion within an allotted time frame. A grace period of approximately ten percent has been added to the calculated completion date for each program. It is not realistic to expect to receive an education for free. The school has reserved space, equipment, and licensed instructors for each student and course/program.

A student who is meeting the requirements of the satisfactory academic progress policy may request a leave of absence for no more than 60 days. Medical or Family Emergencies are the only Leave of Absences that will be approved. This request must be pre-approved. A leave of absence request form must be completed with the reason for the leave, signed and dated and must be submitted to the director of admissions. An **Enrollment Agreement Addendum form** for the Leave of Absence will be completed and signed by both parties once approved. The Leave of Absence request forms are available in the office and online at <http://www.elitecbsacademy.com>. The completed form needs to be mailed, emailed (elitecbsacademy@yahoo.com) or hand delivered before the leave of absence time begins. If, because of extraordinary circumstance keep student from signing form the owner/director may take request via phone or email. All forms will need to be signed once the student returns to school. A notation will be kept in the student file. The leave of absence will commence on the first day of the students' missed physical attendance. A student granted an LOA that meets these criteria is not considered to have withdrawn, and no refund calculation is required at that time and no additional institutional charges will be accrued. A student who does not return by the last day of the leave of absence, or before 60 days in any 12-month period may be withdrawn from the program. The leave will extend the student's contract and maximum time frame for program completion by the same number of calendar days as the leave of absence. If a student is gone longer than 10 scheduled school days, it will be considered an unapproved leave of absence and the student may be withdrawn. The student's withdrawal date for the purpose of calculating a refund will be the date the student began the LOA or the last date of attendance for an unapproved LOA.

Student Services and Counseling

The school will conduct an orientation before you begin the program. This provides information about the instructional programs, goals of each course, policies affecting students and services available to students. Students have access to advising from members of the school staff requiring their program of study, progress, financial affairs, placement, or other areas in which the student may need assistance including referrals to professional assistance when necessary.

Continuing Education Programs (CEU's)

To provide continued support to students after they are out on their own, we provide a variety of classes that meet the National Board of Massage's CEU approval. Currently therapists licensed in Washington State must document that they have a minimum of 32 CEU's every 2 years.

Library/Computer Resource Lab

The school has an extensive resource library with materials in book form, DVD, VHS, and CD format. Besides reference material on basic massage, anatomy, pathology, etc., there are a wide variety of alternative therapies such as Reiki, Reflexology, Cranio-Sacral, Pressure Point Therapy represented. Computer lab allows research via DVD/CD, Milady training on DVD that covers the subjects in your textbook, extensive training DVDs on subjects covered in the Esthetics programs.

Job Placement Services

This is no "formal" job placement program at Elite Cosmetology, Barber & Spa Academy and we do not guarantee employment. However, because of our schools' community activities throughout the year, local spas, beauty shops, barber shops, and massage businesses use our school as a resource pool when looking to hire.

Career Counseling

Career counseling is stressed throughout the course in the areas of personal grooming, hygiene, and good posture. Also stressed throughout the course is communication with others both verbal and non-verbal. Areas that are discussed both in class and on a one-on-one basis are the different specialized fields our student can take such as completion and platform work, travel, color technician, manager-salon owner, instructing, etc.

Students with Disabilities

If you are a student with disabilities that require special accommodation, please fill out a 'Student Request for Accommodations' form and/or 'Reasonable Testing Accommodations Questionnaire' and turn into Student Records Office. All requests require doctors and/or examiners' approval and documentation prior to request being accommodated.

Drug abuse prevention

**Transfer Students- Midpoint of the contracted hours if under 900 hours.

Evaluations will determine if the student has met the minimum requirements for satisfactory academic progress. The frequency of evaluations ensures that students have had at least one evaluation by midpoint in the course.

ATTENDANCE PROGRESS EVALUATIONS

Students are required to attend a minimum of 67% of the hours possible based on the applicable attendance schedule in order to be considered maintaining satisfactory attendance progress. Evaluations are conducted at the end of each evaluation period to determine if the student has met the minimum requirements. The attendance percentage is determined by dividing the total hours accrued by the total number of hours scheduled. At the end of each evaluation period, the school will determine if the student has maintained at least 67% cumulative attendance since the beginning of the course which indicates that, given the same attendance rate, the student will graduate within the maximum time frame allowed.

MAXIMUM TIME FRAME

The maximum time (which does not exceed 150% of the course length) allowed for students to complete each course at satisfactory academic progress is stated below:

		COURSE MAXIMUM TIME ALLOWED	
		WEEKS	SCHEDULED HOURS
Cosmetology (Full Time, 30 hrs/wk)	1600 Hours	80 Weeks	2400
Cosmetology (Part Time, 20 hrs/wk)	1600 Hours	120 Weeks	2400

The maximum time allowed for transfer students who need less than the full course requirements or part-time students will be determined based on 67% of the scheduled contracted hours. Students are required to finish their elected program within 150% of the program length (67% attendance rate). Students who do not graduate on or before the 150% program length will lose financial aid assistance if applicable.

ACADEMIC PROGRESS EVALUATION (GRADING POLICY)

The qualitative element used to determine academic progress is a reasonable system of grades on required academic learning. Students are assigned both academic learning and a minimum number of practical experiences. Academic learning is evaluated after each unit of study. Practical assignments are evaluated as completed and counted toward course completion only when rated as satisfactory or better. If the performance does not meet satisfactory requirements, it is not counted, and the performance must be repeated. At least two comprehensive practical skills evaluations will be conducted during the course of study. Practical skills are evaluated according to text procedures and set forth in practical skills evaluation criteria adopted by the school. Students must maintain a written grade point average (GPA) of 76% and pass a FINAL written and practical exam prior to graduation. A student's GPA is calculated by adding their theory percentage to their practical percentage and dividing it by two. Students must make up for failed or missed tests and incomplete assignments. Numerical grades are considered according to the following scale:

THEORY		PRACTICAL	CITIZENSHIP	
Superior	A (92-100)	Level 4=A	Excellent	A
Above Average	B (84-91)	Level 3=B	Good	B
Satisfactory	C (83-76)	Level 2=C	Fair	C
Unsatisfactory	D (75 or less)	Level 1=D	Poor	D

Missing assignments and or tests will adversely affect grade point average and satisfactory academic progress.

DETERMINATION OF PROGRESS STATUS

Students meeting the minimum requirements for academics and attendance at the evaluation point are considered to be making satisfactory academic progress until the next scheduled evaluation. Students will be notified when an evaluation has been completed and can get a hard copy of that Satisfactory Academic Progress Determination in the Administrative Office. Students deemed not maintaining

Satisfactory Academic Progress may have their Title IV Funding interrupted, unless the student is on warning or has prevailed upon appeal resulting in a status of probation.

WARNING

Students who fail to meet minimum requirements for attendance or academic progress are placed on warning and considered to be making satisfactory academic progress while during the warning period. The student will be advised in writing on the actions required to attain satisfactory academic progress by the next evaluation. If at the end of the warning period, the student has still not met both the attendance and academic requirements, he/she may be placed on probation and, if applicable, students may be deemed ineligible to receive Title IV funds.

PROBATION

Students who fail to meet minimum requirements for attendance or academic progress after the warning period will be placed on probation and considered to be making satisfactory academic progress while during the probationary period, if the student appeals the decision, and prevails upon appeal. Additionally, only students who have the ability to meet the Satisfactory Academic Progress Policy standards by the end of the evaluation period may be placed on probation. Students placed on an academic plan must be able to meet requirements set forth in the academic plan by the end of the next evaluation period. Students who are progressing according to their specific academic plan will be considered making Satisfactory Academic Progress. The student will be advised in writing of the actions required to attain satisfactory academic progress by the next evaluation. If at the end of the probationary period, the student has still not met both the attendance and academic requirements required for satisfactory academic progress or by the academic plan, he/she will be determined as NOT making satisfactory academic progress and, if applicable, students will not be deemed eligible to receive Title IV funds.

RE-ESTABLISHMENT OF SATISFACTORY ACADEMIC PROGRESS

Students may re-establish satisfactory academic progress and Title IV aid, as applicable, by meeting minimum attendance and academic requirements by the end of the warning or probationary period.

INTERRUPTIONS, COURSE INCOMPLETES, WITHDRAWALS

If enrollment is temporarily interrupted for a Leave of Absence, the student will return to school in the same progress status as prior to the leave of absence. Hours elapsed during a leave of absence will extend the student's contract period and maximum time frame by the same number of days taken in the leave of absence and will not be included in the student's cumulative attendance percentage calculation. Students who withdraw prior to completion of the course and wish to re-enroll within 180 days of their withdrawal date will return in the same satisfactory academic progress status as at the time of withdrawal, meaning their qualitative and quantitative progress will remain as it was when they withdrew. Students who withdraw prior to completion of the course and wish to re-enroll after 180 days from their withdrawal date will be treated as transfer students and their qualitative and quantitative progress will start over. If a student wishes to repeat a course after they have previously failed or their hours have expired, their qualitative and quantitative progress will start over. This institution does not allow incomplete grades.

APPEAL PROCEDURE

If a student is determined to not be making satisfactory academic progress, the student may appeal the determination within ten calendar days. Reasons for which students may appeal a negative progress determination include death of a relative, an injury or illness of the student, or any other allowable special or mitigating circumstance. The student must submit a written appeal to the school on the

designated form describing why they failed to meet satisfactory academic progress standards, along with supporting documentation of the reasons why the determination should be reversed. This information should include what has changed about the student's situation that will allow them to achieve Satisfactory Academic Progress by the next evaluation point. Appeal documents will be reviewed, and a decision will be made and reported to the student within 30 calendar days. The appeal and decision documents will be retained in the student file. If the student prevails upon appeal, the satisfactory academic progress determination will be reversed and federal financial aid will be reinstated, if applicable.

Noncredit, Remedial Courses, Repetitions

Noncredit, remedial courses, and repetitions do not apply to this institution. Therefore, these items have no effect upon the school's satisfactory academic progress standards.

Transfer Hours

With regard to Satisfactory Academic Progress, a student's transfer hours will be counted as both attempted and earned hours for the purpose of determining when the allowable maximum time frame has been exhausted.

Student Grievance Procedure

Nothing in this policy prevents the student from contacting the Department of Licensing at any time with a concern or complaint. In accordance with the institution's mission statement, the school will make every attempt to resolve any student complaint that is not frivolous or without merit. Complaint procedures will be included in new student orientation thereby assuring that all students know the steps to follow should they desire to register a complaint at any time. Evidence of final resolution of all complaints will be retained in school files in order to determine the frequency, nature, and patterns of complaints for the institution. The following procedure outlines the specific steps of the complaint process.

1. The student should register the complaint in writing on the designated form provided by the institution within 60 days of the date of the incident.
2. The complaint form will be given to the school Director.
3. The complaint will be reviewed by management and a response will be sent in writing to the student within 30 days of receiving the complaint. The initial response may not provide for final resolution of the problem but will notify the student of continued investigation and/or actions being taken regarding the complaint.
4. If the complaint is of such nature that the management cannot resolve it, it will be referred to an appropriate agency if applicable.
5. Depending on the extent and nature of the complaint, interviews with appropriate staff and other students may be necessary to reach a final resolution of the complaint.
6. In cases of extreme conflict, it may be necessary to conduct an informal hearing regarding the complaint. If necessary, management will appoint a hearing committee consisting of one member selected by the school who has had no involvement in the dispute and who may also be a corporate officer, another member who may not be related to the student filing the complaint or another student in the school, and another member who may not be employed by the school or related to the school owners. The hearing will occur within 90 days of the committee appointment. The hearing will be informal with the student presenting his/her case followed by the school's response. The hearing committee will be allowed to ask questions of all involved parties. Within 15 days of the hearing, the committee will prepare a report summarizing each witness's testimony and a recommended resolution for the dispute. School management shall consider the report and either

accept, reject, or modify the recommendations of the committee. Corporate management shall consider the report and either accept, reject, or modify the recommendations of the committee.

7. Students must exhaust the institution's internal complaint process before submitting the complaint to the school's accrediting agency, if applicable
8. Nothing in the policy prevents the student from contacting the Workforce Board at 360-709-4600 at any time with a concern or complaint.

Attendance Policy

Students must come to class on time and attend 67% of the classes offered to maintain satisfactory progress. Students are required to finish their elected program within 150% of the program length (67% attendance rate). Students who do not graduate on or before the 150% program length will lose financial aid assistance if applicable. Situations beyond a student's control, such as accident or illness, will be addressed by the owner/director to determine whether an absence is excusable. Students who are gone longer than 10 scheduled school days and have not contacted the school administration and the school administration was unable to make contact with the student will be dropped.

Assignment make-up policy

Students are expected to graduate by the completion date on their contract. Students who need to make up hours may attend additional classes (Saturday). Students are responsible for making arrangements with instructors to schedule a time to make up test, and or missing assignments. Missing and failed tests will adversely affect the students GPA (Grade Point Average) and SAP (Satisfactory Academic Progress).

Title IV Refund Policy: Treatment of Title IV Aid When a Student Withdraws Policy

Summary of the Requirements of 34 CFR 668.22. The law specifies how the school must determine the amount of Title IV program assistance that you earn if you withdraw from school. The Title IV programs that are covered by this law are Federal Pell Grants, Iraq, and Afghanistan Service Grants, TEACH Grants, Direct Loans, Direct PLUS Loans, Federal Supplemental Educational Opportunity Grants (FSEOGs), and Federal Perkins Loans.

Though your aid is posted to your account at the start of each period, you earn the funds as you complete the period. If you withdraw during your payment period or period of enrollment (your school can define these for you and tell you which one applies to you), the amount of Title IV program assistance that you have earned up to that point is determined by a specific formula. If you received (or your school or parents received on your behalf) less assistance than the amount that you earned, you may be able to receive those additional funds. If you received more assistance than you earned, the excess funds must be returned by the school and/or you.

The amount of assistance that you have earned is determined on a pro rata basis. For example, if you completed 30% of your payment period or period of enrollment, you earn 30% of the assistance you were originally scheduled to receive. Once you have completed more than 60% of the payment period or period of enrollment, you earn all the assistance that you were scheduled to receive for that period. If you did not receive all of the funds that you earned, you may be due a post-withdrawal disbursement. If your post-withdrawal disbursement includes loan funds, your school must get your permission before it can disburse them. You may choose to decline some or all of the loan funds so that you don't incur additional debt. Your school may automatically use all or a portion of your post-withdrawal disbursement of grant funds for tuition, fees, and room and board charges (as contracted with the school). The school needs your permission to use the post-withdrawal grant disbursement for all other school charges. If you do not give your permission (some schools ask for this when you enroll), you will be offered the funds. However, it may be in your best interest to allow the school to keep the funds to reduce your debt at the school.

For students who withdraw, both officially and unofficially, their withdrawal date will be the same as their last date of attendance.

If the R2T4 calculation results in a post-withdrawal disbursement, the Title IV funds that the student has earned, but have not yet been disbursed, will be distributed as follows:

- a) The post-withdrawal disbursement will be made from available grant funds before available loan funds. The institution will credit the student's account up to the amount of outstanding charges with all or a portion of grant funds that make up the post-withdrawal within 45 days from the date of the institution's determination that the student withdrew.
- b) The institution must receive confirmation from the student, or parent in the case of a parent PLUS loan, that they still wish to have the loans disbursed before the institution can use the loan funds that make up the post-withdrawal to credit a student's account. A post-withdrawal disbursement notification letter will be sent to the student, or parent in the case of a parent PLUS loan, within 30 days, and they will be given at least 14 days to respond.

If the R2T4 calculation results in a credit balance being due to the student, it must be disbursed as soon as possible and no later than 14 days after the R2T4 calculation was completed.

There are some Title IV funds that you were scheduled to receive that cannot be disbursed to you once you withdraw because of other eligibility requirements. For example, if you are a first-time, first-year undergraduate student and you have not completed the first 30 days of your program before you withdraw, you will not receive any Direct Loan funds that you would have received had you remained enrolled past the 30th day.

If you receive (or your school or parent receive on your behalf) excess Title IV program funds that must be returned, your school must return a portion of the excess equal to the lesser of:

1. your institutional charges multiplied by the unearned percentage of your funds, or
2. the entire amount of excess funds.

The school must return this amount within 45 days of the date of official withdrawal or within 45 days of the date of determination of withdrawal if the student does not officially withdraw, even if it didn't keep this amount of your Title IV program funds.

If the R2T4 calculation results in an amount to be returned that exceeds the school's portion, the student, or parent in the case of a parent PLUS loan, will be responsible for repaying the excess amount in accordance with the terms of the promissory note.

- a) The amount of funds the student will be responsible for returning is calculated by subtracting the amount of unearned aid that the institution is required to return from the total amount of unearned Title IV aid to be returned.
- b) The student must return or repay, as appropriate, the amount determined to:
 - a. Any Title IV program in accordance with the terms of the loan; and
 - b. Any Title IV program as an overpayment of the grant; however, a student is not required to return the following:
 - i. The portion of a grant overpayment amount that is equal to or less than 50 percent of the total grant assistance that was disbursed (and that could have been disbursed) to the student for the payment period.
 - ii. With respect to any grant program, a grant overpayment amount of 50 dollars or less is not a remaining balance.

Any amount of unearned grant funds that you must return is called an overpayment. The maximum amount of a grant overpayment that you must repay is half of the grant funds you received or were scheduled to receive. You do not have to repay a grant overpayment if the original amount of the overpayment is \$50 or less. You must decide with your school or the Department of Education to return the unearned grant funds.

The requirements for Title IV program funds when you withdraw are separate from any refund policy that your school may have. Therefore, you may still owe funds to the school to cover unpaid institutional charges.

Your school may also charge you for any Title IV program funds that the school was required to return. If you don't already know your school's refund policy, you should ask your school for a copy. Your school can also provide you with the requirements and procedures for officially withdrawing from school.

Distance Education Policy – For Approved Courses

- ❑ You must have access to a computer and online services to take this option of delivery of your theory subjects and other hours listed on the course outline in your catalog that are noted for available distance learning. If you do not have access to a computer, Elite Academy will issue you one (if available) that must be returned upon graduation or withdrawal from Elite Academy.
- ❑ Students must complete their basic training in-person at Elite Academy before they can earn clock hour credit for distance education during Elite Academy's business hours. During basic training, students will only be eligible to receive credit for distance education hours completed outside of business hours. A basics checklist will be completed by an instructor and maintained in each student's file as proof that they have completed basic training and are eligible to earn credit for distance education hours completed during Elite Academy's business hours.
- ❑ Students must participate in learning activities while physically present at Elite Academy's campus at least every 10 scheduled school days and be in attendance for a full scheduled length of day as stated on student's enrollment contract.
- ❑ Only the CIMA Accreditation report will be accepted for CIMA Training hours. CIMA theory hours are Asynchronous (at your convenience of location and time).
- ❑ The school will monitor your progress and will schedule academic counseling with the Director of Education and/or Student Services director if the student does not progress in a direction that will ensure Satisfactory Academic Progress.
- ❑ Satisfactory Academic Progress in attendance and academics and all other requirements which is mandatory for graduation are for all students including Distance Education learners.
- ❑ All Distance Education students will complete 55% of their hours onsite at Elite Academy and no more than 45% of the course hours will be distance (the only exception will be the 10% allowed for externships).
- ❑ Online Distance Learning is only for subjects listed in the course outline available for distance learning in the catalog and can't exceed 45% of your total required training hours for your course. (EXAMPLE: clock hours not available for distance learning would be clinic hours which include working on live models and/or clients.)
- ❑ If for whatever reason, Distance Education hours can't be verified and clock hours measured by online training with interaction with the instructor, instruction for that period will not be accepted by Elite Academy.
- ❑ All assessments that will be used for calculating a student's GPA will be executed while the student is physically on campus. These on campus assessments include both practical and theory exams as well as a Final examination for Theory and a Final Practical Evaluation prior to student's graduation. These final competencies will meet all Washington State licensure requirements and assist you in passing your state examination.
- ❑ Students must complete a chapter and pass the chapter exam on CIMA in order to take the corresponding theory exam in-person at Elite Academy. Instructors will use their CIMA access to determine whether a student has completed a chapter and passed the chapter exam, then administer the corresponding theory exam to the student at Elite Academy.
- ❑ All theory and practical examinations must be taken and passed with a minimum of 76% onsite at Elite Academy.
- ❑ A Google invite can be sent to you after school hours or Saturdays if you need extra tutoring or answers to your questions. This after-hours invite needs to be scheduled by a text message or call to Betty King

Veterans Benefit Approval

Selected programs of study at Elite Cosmetology, Barber & Spa Academy are approved by the Workforce Training and Education Coordinating Board's State Approving Agency (WTECB/SAA) for enrollment of those eligible to receive benefits under Title 38 and Title 10, USC. Elite Cosmetology, Barber & Spa Academy does not and will not provide any commission, bonus, or other incentive payment based directly or indirectly on success in securing enrollment or financial aid to any person or entities engaged in any student recruiting or admissions activities or in making decisions regarding the award of student financial assistance.

In the event that a veteran wishes to enroll in a program that has already reached the 85% cap, he or she may do that but will not be eligible for VA funding. Chapter 35 and 31 students may still enroll even if the 85% has been realized.

Veterans Enrollment Previous Education: Elite Academy "maintains a written record of the previous education and training of the veteran or eligible person and clearly indicates appropriate credit has been given for previous education and training, with the training period shortened proportionately, and the veteran or eligible person and the Department of Veterans Affairs so notified." Please see Special Considerations on page 7 of this catalog for Graduated/Licensed Operators to see what hours are available for credit toward the program desired.
